It includes a dropdown for the year (2018), checkboxes for various allowances (Zorgtoeslag is selected), a date of birth field (31-03-1987), a country dropdown (Nederland), and radio buttons for 'Hebt u een toeslagpartner?' ## SECTION 5 – Calculate (*Bereken*)

Once you've completed all questions, or if the form has ended prematurely because of the answers you have given, the '*Bereken*' (calculate) button at the end of the form becomes active. Please click this button to continue.

You now see an estimate of your healthcare benefit based on your income and personal situation.

The message '*U krijgt geen zorgtoeslag*' means that you do not qualify for healthcare benefit. The most common reason is that your income and capital are higher than the annual threshold.

The message '*De zorgtoeslag voor u en uw toeslagpartner samen is €69 per maand*' means you and your tax partner would be eligible to receive €69 per month (combined), for example. If you do not have a tax partner, you will be given an estimate for your individual healthcare benefit per month.

If you would like to make any changes to your details, click the button titled '*Wijziging invoer*' at the end of the page.
